

## Blackboard 9.1 Changes

These are basic changes within Blackboard that faculty would need to know to continue to use Blackboard as usual without learning about any of the new features that 9.1 offers.

### Action Bar

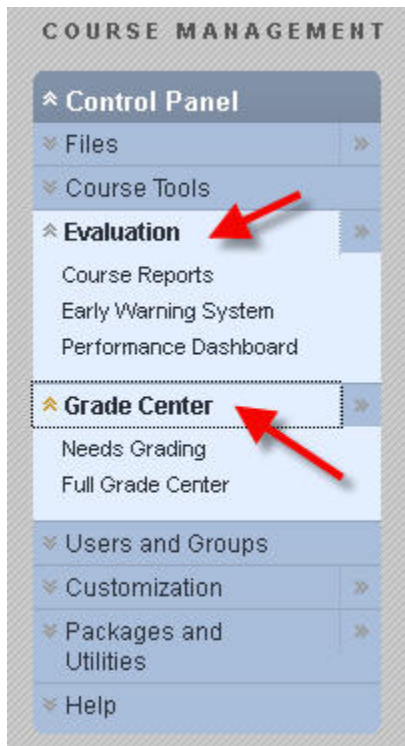

The Action Bar within any content area has been completely revised. The two sections that faculty members need to be aware of is the **Build Content** section and the **Create Assessment** section to continue business as usual. The rest could be ignored.

## Course Tools

Under **Course Tools** BB 9.1 offers many new features that a faculty member does not have to use if they choose not to. They can turn off the features by going to **Customization > Tool Availability**

## Grade Center

In BB 9.0 all Grade Center and Evaluation features within Blackboard was under the **Evaluation** menu item.

In BB 9.1 the Grade Center and Evaluation features have been separated into their own sections.

The Grade Center has been split into two areas as well. Faculty members can go to the **Needs Grading** area to focus on only those items that need to be graded. Or, they can go to the **Full Grade Center** if they need to see the bigger picture.

## Grade Details

**Grade Details**

Jump to... View Rubric

User **Jane Abu-Ghazaleh (jane.abu-ghazaleh)** < > Column **Course Options Time (Test)** < >

**Current Grade:** **60.00** out of 1 points  
Grade based on Grade of Last Attempt  
Due: None  
Calculated Grade 60.00  
[View Attempts](#)

**Edit** [Manually Override](#) [View Column Details](#) [Grade History](#)

Delete

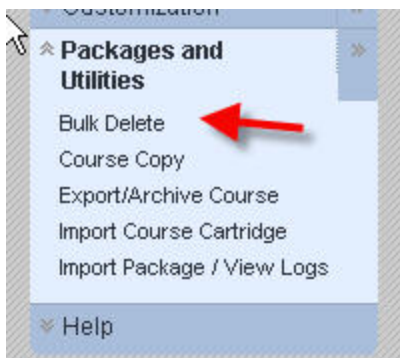

Date Submitted (or Saved)	Value	Feedback to User	Grading Notes	Actions
Aug 5, 2010 9:00:33 AM (Completed)	60.00			<a href="#">View Attempt</a> <a href="#">Clear Attempt</a> <a href="#">Edit Grade</a>

[Icon Legend](#)

[Return to Grade Center](#)

The Grade Details screen has a new and improved user interface. Faculty members will be able to navigate this without any real issues if they were accustomed to how it was in 9.1.

## Bulk Delete

In BB 9.0 the feature that would allow a Faculty member to delete all contents of a course was called **Recycle Course**.

In BB 9.1 this feature has been renamed to **Bulk Delete**.
